

# Fact Sheet: Lakeview Recovery Roads Program Repairs

City of New Orleans  
Department of  
Public Works

## Project Summary:

The City of New Orleans began implementing a multi-million dollar, multi-year comprehensive infrastructure improvement program to repair Hurricane Katrina related sub-surface and road damages in summer 2012. Types of repairs deemed eligible for improvement by FEMA include utilities, sidewalks, American with Disabilities Act compliant ramps, driveway aprons, curbs and road paving.

## Project Facts:

**Phase I:** Between 2008-2009, the City of New Orleans performed citywide repairs to approximately 17,000 damage sites at an estimated cost of \$55.2 million. Completed repairs in Lakeview totaled approximately \$6.5 million.

**Phase II:** The Lakeview Recovery Roads program will include five construction repair projects with a total estimated value of approximately \$26,600,000 for roadway, sidewalk and sub-surface utility improvements.

Improvements to the 6700 block of Vicksburg St., between Chapelle St. and Filmore Ave. were completed in December 2012. The remaining project timeline is under development.

**Scope:** The scope of work may include removal of the existing asphalt roadway, grading/leveling of the road, catch basin adjustments, replacement of damaged sidewalks, placement of new curbs and installation of new ADA compliant ramps at sidewalk corners.

## What to expect during construction:

Residents and businesses in the Lakeview area should exercise caution when driving, bicycling or walking near active construction sites. Residents can expect to experience temporary construction inconveniences such as limited access to areas within the construction zones, detours, movement of heavy equipment, safety signage and sounds. In general, construction crews will be working from 7 a.m. to 5 p.m., Monday through Friday.

CDM Smith and Richard C. Lambert Consultants are currently designing road improvements in the Lakeview area. The Lakeview Quad 1 Pavement Only contract is currently being completed by Durr Heavy Construction. The Lakeview Quad 1 Pavement Only scope of work will be completed by TKTMJ.

\* FEMA inspectors will be working onsite with the City's design and construction contractor teams. During construction they are likely to identify additional storm damages that may be eligible for repair. In many cases it is likely the scope of work may be adjusted to include additional repairs.

## Project Area:

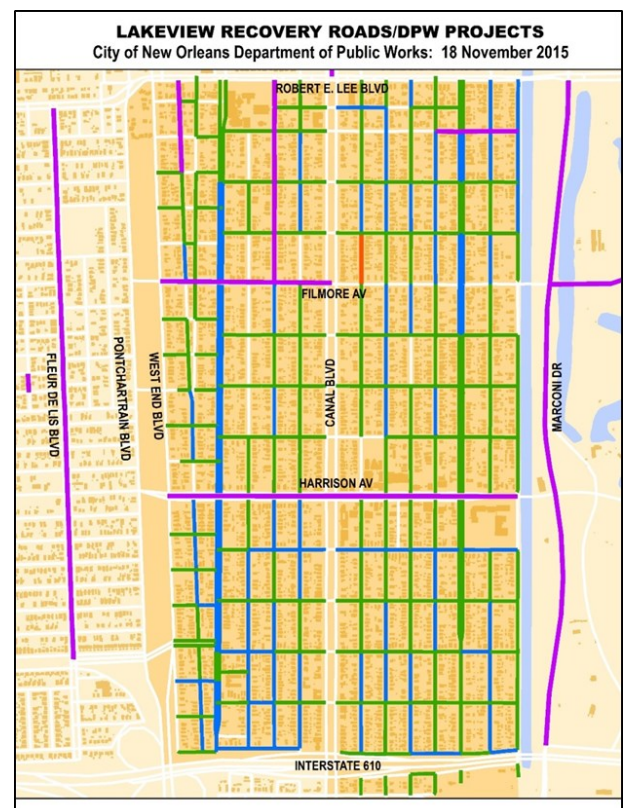

### Quadrant 1 boundaries:

- Harrison Ave.
- Orleans Ave.
- Kenilworth St.
- Pontchartrain Blvd

### Quadrant 2 boundaries:

- Robert E. Lee Blvd
- General Haig St.
- Harrison Ave.
- Pontchartrain Blvd.
