

Fact Sheet: Navarre Recovery Roads Program

City of New Orleans
Department of
Public Works

Project Summary:

The City of New Orleans will implement a multi-million dollar, multi-year comprehensive infrastructure improvement program to repair Hurricane Katrina related sub-surface and road damages. Types of repairs deemed eligible for improvement by FEMA include utilities, sidewalks, American with Disabilities Act compliant ramps, driveway aprons, curbs and road paving.

Project Facts:

Phase I: Between 2008-2009, the City of New Orleans performed citywide repairs to approximately 17,000 damage sites at an estimated cost of \$55.2 M. The total cost of Phase I repairs completed in Navarre totaled approximately \$730,000.

Phase II: The Navarre Recovery Roads program will include multiple construction repair projects with a total estimated value of approximately \$426,000 for roadway improvements. Design of the future road repairs is currently underway and is being closely coordinated with the Sewerage and Water Board of New Orleans. In Navarre, construction is currently scheduled to begin in Summer 2013 and last through Summer 2014. Road resurfacing work will be limited in some areas of Navarre.

What to expect during construction:

Residents and businesses in Navarre should exercise caution when driving, bicycling or walking near active construction sites. Residents can expect to experience temporary construction inconveniences such as limited access to areas within the construction zones, detours, movement of heavy equipment, safety signage and sounds.

In general, construction crews will be working from 7 a.m. to 5 p.m., Monday through Friday. Phoenix Global will be designing road improvements in the Navarre area. The construction contracts is scheduled to be available for bid in Spring 2013.

Funding Facts:

Neighborhood Area	Phase of Work	Consultants	Total Estimated Repairs
Phase I Completed Repairs	Completed	NA	\$730,000
Phase II Repairs	Design	Phoenix Global Construction, Inc.	\$426,000
	Construction	TBD	
TOTAL Repairs Navarre			\$1.156 M

* FEMA inspectors will be working onsite with the City's design and construction contractor teams. During construction they are likely to identify additional storm damages that may be eligible for repair. In many cases it is likely the scope of work may be adjusted to include additional repairs.

Project Boundaries:

- City Park Ave.
- Interstate-10
- Interstate-610
- Canal Blvd.
- Florida Blvd.
- Orleans Ave.
