

Fact Sheet: Tall Timbers - Brechtel Recovery Roads

City of New Orleans
Department of
Public Works

Project Summary:

The City of New Orleans will implement a multi-million dollar, multi-year comprehensive infrastructure improvement program to repair Hurricane Katrina related sub-surface and road damages. Types of repairs deemed eligible for improvement by FEMA include utilities, sidewalks, American with Disabilities Act compliant ramps, driveway aprons, curbs and road paving.

Project Facts:

Phase I: Between 2008-2009, the City of New Orleans performed citywide repairs to approximately 17,000 damage sites at an estimated cost of \$55,200,000. Completed repairs in the Tall Timbers—Brechtel neighborhood totaled approximately \$64,000.

Phase II: The Tall Timbers—Brechtel Recovery Roads program will include multiple construction repair projects with a total estimated value that is approximately \$1,000,000. Design of the future road repairs is currently underway and is being closely coordinated with the Sewerage and Water Board of New Orleans. Construction in Tall Timbers—Brechtel is scheduled to begin in Spring 2017 and last through Spring 2018. Road resurfacing work will be limited in some areas of Tall Timbers—Brechtel.

What to expect during construction:

Residents and businesses in Tall Timbers—Brechtel should exercise caution when driving, bicycling or walking near active construction sites. Residents can expect to experience temporary construction inconveniences such as limited access to areas within the construction zones, detours, movement of heavy equipment, safety signage and sounds.

In general, construction crews will be working from 7 a.m. to 5 p.m., Monday through Friday. The Tall Timbers—Brechtel design team is Richard C. Lambert Consultants. The construction contract is scheduled to be available for bid in early 2017.

Funding Facts:

Neighborhood Area	Status	Consultants	Total Estimated Repairs
Phase I Repairs	Completed	N/A	\$64,000
Phase II Repairs	Design	Richard C. Lambert Consultants	\$1,000,000*
	Construction	TBD	
TOTAL Repairs — Tall Timbers—Brechtel			\$1,064,000*

* FEMA inspectors will be working onsite with the City's design and construction contractor teams. During construction they are likely to identify additional storm damages that may be eligible for repair. In many cases it is likely the scope of work may be adjusted to include additional repairs.
